Art Unit: 3634

The applicant's information disclosure statement dated 4/13/2007 has been considered and a copy has been placed in the file.

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, line 4, and claim 9, line 5, the phraseology "'a wire winding pulley provided at the step panel'" is not readily understood by the Examiner. More specifically, what is meant by "at the step panel"?

Depending on the applicant's amendments, claims 1-19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. patents to Haag et al., and Yokomori et al. disclose drive systems similar to that of the applicant's invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerry Redman whose telephone number is 571-272-6835. The examiner can normally be reached on M-F from 8 to 6.
